

Lifestyle Balanced Fund

January 2012

Multi-Manager co-heads

Team biographies

The Lifestyle Funds are managed by the Thames River Multi-Capital team, which is co-headed by Rob Burdett and Gary Potter. Rob and Gary joined Thames River from Credit Suisse in 2007 and are supported by four associates and a desk manager. Of the associates Kelly Prior and Paul Green have been working with Rob and Gary for over 14 years and Anthony Willis has been with the team for 10 years. Desk Manager Wai-Ling Lam rejoined the team in November 2009 after an industry break, previously having worked with them for 5 years. Catherine Sauer joined as an associate in September 2010 from F&C. Each member brings different qualities and skills to the team. The team's investment approach, which seeks out exceptional investment management talent globally, has won them many awards including Professional Adviser's 'Best Multi-Asset Group' 2010.

Key details

Year End	31 Mar
Distribution Policy	Annually
Payment Dates	31 May
Front End Fee	5.00%
Management Fee	1.50% p.a.
Minimum Investment	£5,000.00
Historic yield	1.00%
Fund Price	95.93p
ISIN : SCA	GB00B1TMPN12

Fund overview

The Lifestyle Balanced risk profile matching portfolio will invest in UK equities with the balance of the Fund allocated across the principal non-UK equity markets including some exposure to emerging markets and UK corporate bonds with an allocation to property primarily through collective investment schemes. The Fund may also hold transferable securities and money market instruments. It may use derivatives to increase, maintain and reduce its investment exposures.

Lifestyle Balanced offers access to an actively managed and highly diversified portfolio, the asset allocation of which is specified by Distribution Technology, an independent company and one of the UK's leading providers of advice technology. Using sophisticated techniques the asset allocation is created to optimise the potential for returns whilst minimising risk. The portfolio is constructed in such a way that its asset allocation is aligned with a defined investor risk profile, which in turn can be identified during the advisory process through the application of a risk profiling tool.

Within the defined asset allocations the Multi Manager Team actively manage the Fund. They seek to identify best of breed managers and blend a diverse range of investment funds capable of delivering consistent returns to investors. The Team works to ensure the portfolio is best placed given prevailing market conditions and constantly monitor holdings and overall portfolio composition, implementing a rebalancing regime as appropriate.
